

Message from the President

Hello Curlers and Fans.

A warm welcome to all curlers, fans, and sponsors of the Grande Prairie Curling Centre.

In complete compliance with the directive from the Alberta government we will be opening the Centre on Sunday, November 29th, 2020 subject to any additional Government directives. Our Board of Directors and staff are fully committed to ensure that first and foremost that our opening plans are predicated on full compliance with all Covid protocols mandated by Government, Health, and Curling organizations. Your safety and health while using our Centre are our first and highest priority.

We have completed our Return to Play Plan which will be posted on our website and which will be emailed to all of our members as well.

Our curling ice is ready, and a full range of curling, food and social services are waiting for you when our doors open.

Given that our curling season will be shortened this year our Board has a membership fee policy in place which can best be labeled as the "You Pay for what you Play Policy".

In other words, our policy is that teams that have already registered and paid this year's league fees will be eligible for a refund based on the shortened season and new teams will pay the reduced membership fee.

Our intent is to be fair to all of our members and to give reality to our "You Pay for what you Play Policy". It will apply and will adjust to any further changes in Covid protocols that could further shorten the curling season.

I will take this opportunity to introduce myself. My name is Keri Bruce, and I was elected as the President in November 2020. It is both an honour and a privilege to serve in this position during this extremely challenging time. We are truly fortunate to have an excellent Board of Directors and staff who are all unified and determined in their desire to overcome the many challenge's we all face.

We believe that our Curling Centre will play a positive role this year and in the future in making an incredible and necessary contribution to the overall health, social, and sporting life of our community.

I look forward to meeting each of you this year at the Curling Centre.

Keri Bruce

President
